Anthony Setiawan

Fullstack developer and cloud engineer

tonskom@gmail.com · +62 838 3000 9213 · linkedin.com/in/anthony-setiawan-72a369129 · github.com/phantorios

Five years building enterprise web platforms, SaaS products and delivery pipelines, for enterprise, education and government teams in Indonesia and the Netherlands. Comfortable across the stack and in the pipeline: PHP, Python, C#/.NET and Node on the application side, Azure, Docker, Kubernetes and GitHub Actions on the delivery side.

Experience

May 2024 – present

KaiStudio

Business and technical consultant, freelance

- Ran post-release operations for a game on a Japanese-only platform, lifting user satisfaction by roughly 20 to 25 percent and cutting development and deployment time by 30 percent.
- Built in-house performance analysis and debugging tools, and ran CI/CD with GitHub Workflows and Actions.
- Applied generative AI to produce automated translations that read more naturally than conventional machine translation.

RPG Maker MV · Python · JavaScript · Bash · GitHub Actions

May 2025 – Oct 2025

ASUS Holland B.V.

Software developer, full time

- Maintained and supported business-critical applications for the EMEA region.
- Wrote Bash and PHP automation for debugging, error-log analysis and translation-file processing.
- Worked with IT teams on stability and application delivery through Azure DevOps and Git.

PHP · Bash · Azure DevOps · Git

Sep 2023 – Mar 2024

ASML B.V.

DevOps CI/CD quality checker, graduation internship

- Built CI/CD pipelines with GitHub Actions and Docker to automate quality checks across repositories.
- Designed a Splunk dashboard for monitoring results and infrastructure visibility.
- Used Bash, Python and YAML with containerisation for automation and testing.

GitHub Actions · Docker · Splunk · Python · YAML

Nov 2021 – Aug 2022

Warna Warni Media Group

Fullstack developer, full time

- Designed and developed EATS and ERIS, the company's core employee management SaaS, used across Indonesia and Southeast Asia.
- Built websites for branch businesses, focused on functionality and user experience.

C# / .NET Core · Microservices · SQL Server · PHP

May 2021 – Oct 2021

Scomptec Edupersada

Fullstack developer, contract

- Built full-stack CMS and web portal applications for the Governor of East Java.
- Built REST APIs and backend services with Node.js and Laravel, deployed through GitHub, GitLab and cloud infrastructure.

Laravel · Vue · Angular · Python · Azure

Sep 2020 – May 2021

Renjana Abi Yasa

Fullstack software developer, full time

- Developed an e-learning platform for Indonesia's Ministry of Education, used by students and teachers in national schools.
- Worked in the most critical development team on stability, scalability and performance at national scale.

C# / ASP.NET · Microservices · React Native · Vue · Jenkins

Skills

PHP, Laravel, Python, FastAPI, Django, C# and .NET, Node.js, JavaScript, React, Vue, Angular, PostgreSQL, SQL Server, MySQL, Azure, Azure DevOps, GitHub Actions, Docker, Kubernetes, Bash, YAML, SonarQube, Splunk

Education

BSc Computer Science, Fontys University of Applied Sciences (NL)
BSc Computer Science, Petra Christian University (ID)
Double degree programme

Certifications	Microsoft AZ-900: Azure Fundamentals UI/UX certification, Tokopedia SAP01 overview, Edugate IELTS 7.0 (CEFR C1), IDP Education
Languages	Indonesian (native), English (professional, C1), Japanese (basic, N5), Dutch (learning)
